ANY BUSINESS INVOLVED IN OR WITH
THE CANNABIS TRADE INDUSTRY

The Cannabis Industry is undergoing a rapid transformation in Canada as the new federal government commits to full legalization, regulation and taxation of adult use cannabis. A series of complex public policy issues will be faced as we move towards legalization, including the legal limbo status of MMPR post the Allard decision.

CFBA will advocate throughout the consultation phase for a broad production and distribution model, while maintaining the highest standards for quality and security. CFBA will propose a model that will allow the production and sale of cannabis products similar to the craft beer and wine industries in Canada. Providing craft products in to regional and national distribution markets while maintaining the ability to produce and sell at retail locations.

Currently we face a slew of high priority issues:

ONTARIO BILL 45 -

1. No indoor use of medicinal marijuana vaporizers
- 2.No display or handling of vaporizers to educate users
- 3.No vapour lounges
