TORONTO REPORT

METHODOLOGY

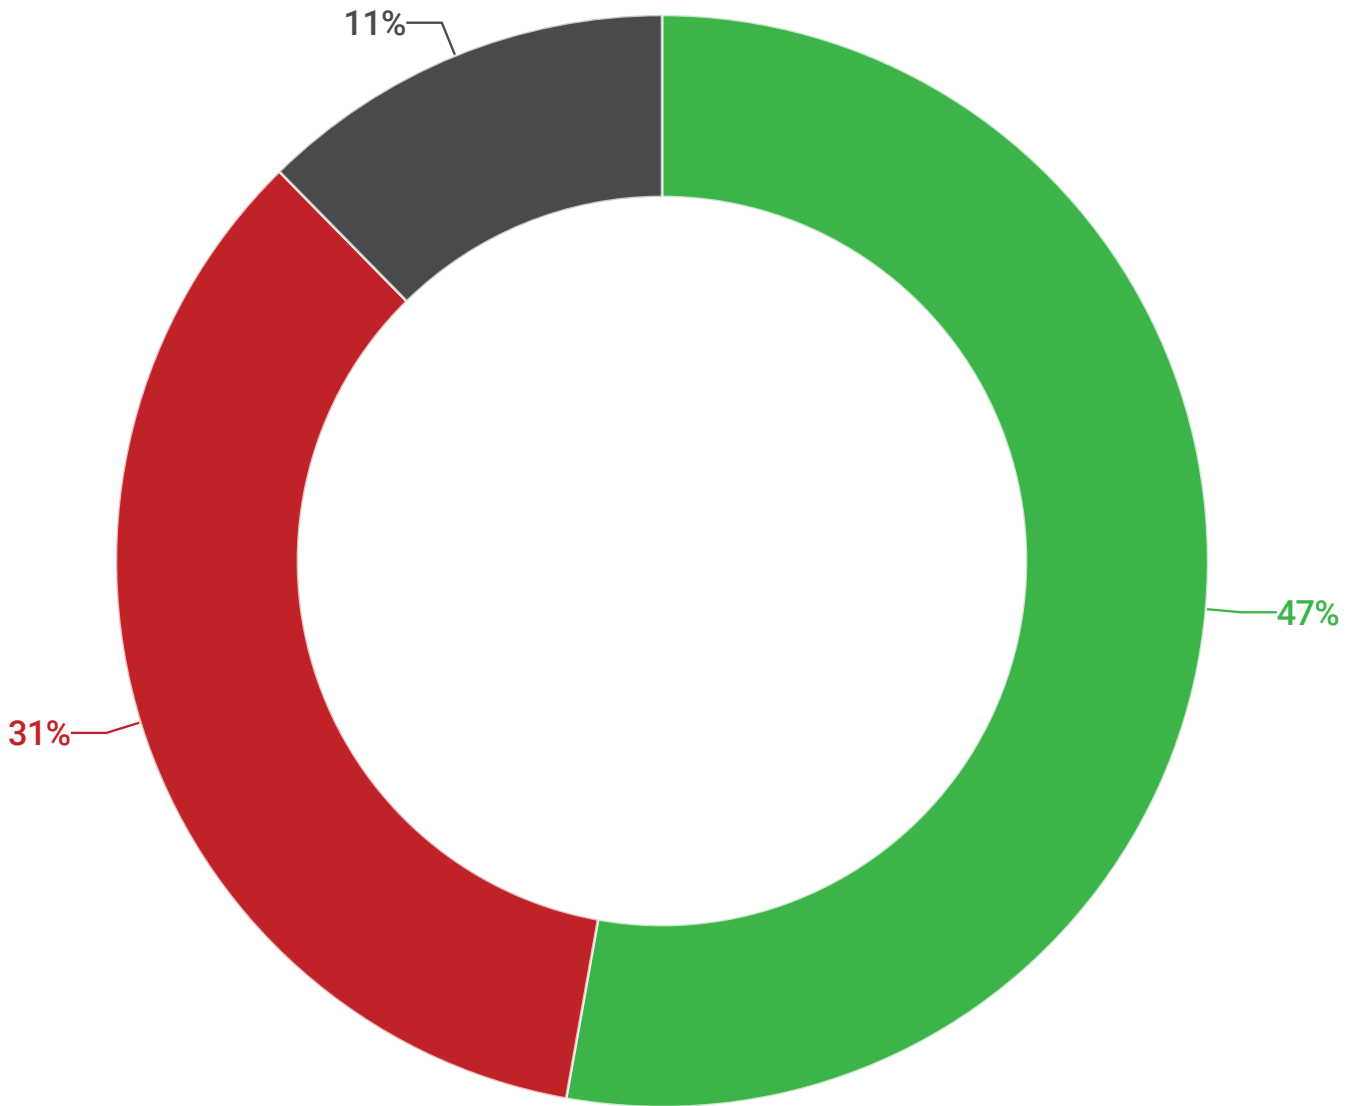

The Cannabis Friendly Business Association engaged Mainstreet Research to conduct a poll in the city of Toronto. Mainstreet surveyed a random sample of 2,447 Toronto Residents by Smart IVR™ on May 24, 2016. A mixture of landlines and cell phones were surveyed. Margin of error: +/- 1.98%, 19 times out of 20. Results were weighed by geography, age and gender based on the 2011 Canadian Census.
